PROFESSIONAL SUMMARY

Aspiring Software Engineer with hands-on experience in software and hardware mini projects, focused on developing practical applications and building strong programming and web development expertise. Proficient in learning and adapting to modern development tools and technologies, with strong problem-solving, teamwork, communication, and analytical skills. Eager to contribute to software development projects while continuously enhancing technical capabilities.

TECHNICAL SKILLS

- **Programming Language:** PYTHON, C, MySQL
- **Web Development:** HTML, CSS
- **Tools:** Jupyter Notebook, Google Colab, Git, GitHub
- **Core Skills:** Problem Solving, Team Collaboration

PROJECTS

1. Enhanced Prompting Framework for Code Summarization with Large Language Models

Technologies: Python, NLP, Large Language Models (LLMs), Prompt Engineering,

- Developed an AI-powered system for automatic source-code summarization.
- Used an enhanced prompting framework to generate structured code explanations.
- Generated summaries, line-by-line explanations, complexity analysis, and keywords.
- Helps users understand programming logic and create developer-friendly documentation.

2. Intelligent Resume-Job Matching System

Technologies: Python, Scikit-learn, TF-IDF, Cosine Similarity, Pandas, NumPy

- Developed a Python-based system to match resumes with job descriptions.
- Used TF-IDF and Cosine Similarity to calculate job-match scores.
- Extracted technical skills, soft skills, domain skills, and certifications.
- Identified missing skills and ranked resumes based on their matching scores.

3. Smart Parking Monitoring System

Technologies: Arduino, Ultrasonic/IR Sensors, Servo Motor, LCD Display, Embedded C/C++, Arduino IDE

- Design and implemented a Smart Parking Monitoring System using IOT technology to monitor and manage real world problems.
- It solves the problems such as Parking congestion and spaces, fuel efficiency and time management.

INTERNSHIP

AAHA Solution | On-site | 12 Feb 2025 – 21 Feb 2025

- Assisted in software development and testing.
- Worked with Python and debugging tasks.
- Collaborated with the development team.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science and Engineering

IFET College of Engineering, Villupuram, Tamil Nadu

Expected Graduation: 2027 | Current CGPA: 8.35

Higher Secondary Certificate (HSC) -Seventh-Day Adventist Higher Secondary School, Puducherry 2023 | 84%

CERTIFICATIONS

CSC – Advanced Diploma in Java Programming (ADJP).

CISCO – CCNA Networking Course

SOFT SKILLS

Strong problem-solving, effective communication, teamwork, adaptability, critical thinking, and time-management skills.

LANGUAGE

- Tamil and English
